

LED Surface Luminaire Essence IP54 SENSOR

Surface E 360 24.5W CCT

Radium

Product Datasheet Date: 20.05.2026

30004000K

General Data

Artikel Nr.	SFEA5099
Bestellzeichen	SF E 360 24.5W CCT IP54 SENSOR
EAN-Faltschachtel	4003556015173
Versandeinheit in Stk.	6
EAN Umkarton (Versandeinheit)	4003556415171
Brutto-Gewicht Versandeinheit in kg	5.81
Länge Versandeinheit in m	0.656
Breite Versandeinheit in m	0.4
Höhe Versandeinheit in m	0.405
Product weight	570 g
Produktstatus	● Aktiv

Electric Parameters

Max. system power	24.5 W
Nominal voltage	220-240 V
Voltage type	AC
Nominal current	195 mA
Nominal current (mA)	195 mA

LED Surface Luminaire Essence IP54 SENSOR

Surface E 360 24.5W CCT

Radium

Electric Parameters

Inrush current	2 A
Mains frequency	50/60 Hz Hz
Dimming with push-button	Nein

Light Application Parameters

Luminous flux adjustable	Nein
Luminous flux	2050 lm
Rated luminous flux according to IEC 62722-2-1	2050 lm
Luminous flux @3000K	1900 lm
Luminous flux @4000K	2050 lm
Beam angle adjustable	Nein
Beam angle	120 °
Unified Glare Ratio (UGR)	28
Efficacy	83 lm/W
Total mains efficacy	83 lm/W
Colour of light adjustable	Positions
CCT Switch	Nein
Colour of light	White
Color temperature	3000 / 4000 K
Color coordinate X	0.434
Color coordinate Y	0.403
Color rendering index	≥ 80
Color Stability	≤ 6 sdcn
With light sensor	Ja

Service Life

Lifetime L70B50	30000 h
Life L80B10	30000 h
No. switching cycles	≥ 50.000
Guarantee	3

Specification

Diameter	360 mm
Length	360 mm
Height/depth	100 mm
Width	360 mm

LED Surface Luminaire Essence IP54 SENSOR

Surface E 360 24.5W CCT

Radium

Specification

Material	Steel sheet/ PMMA
Impact strength	IK03
Photobiological safety according to EN 62471	RG0
With light source	Ja
Exchangeable control gear	Ja

Notes on Operation

Degree of protection (IP)	IP54
Connection type	Push-in clamp
Type of wiring	Ending
Max. number of luminaires per B10 circuit breaker	40
Max. number of luminaires per B16 circuit breaker	64
Filament test according to IEC 60695-2-11	650 °C - 30 s
Type of control gear	LED operating device voltage-controlled
With light sensor	Ja
With movement sensor	Ja
Suitable for emergency lighting	Nein
Emergency power supply integrated	Nein

Information especially for EPREL

Mains/Non mains connectable	MLS
Directional or non-directional light	NDLS
Color tunable light source	Ja
Type of color temperature	STEPS
Flickering value Pst LM	1
Stroboscope effect value SVM	0.4
EPREL ID number	2676391

Notes

Universal LED wall and ceiling luminaire IP54, integrated LED driver with power select and sensor, adjustable light color (steps)

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value.

The optimal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Spektrale Strahlungsverteilung

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.

The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.

White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin.

LED Surface Luminaire Essence IP54 SENSOR

Surface E 360 24.5W CCT

Radium

Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

daylight(D 65)

Besonderheiten

Allgemeine Hinweise

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.
