

LED EssenceDuo - Retrofit f. Ralux Duo
RL DUO18 7W/230/840/G24D

Radium

Product Datasheet Date: 18.01.2026

A+

7

700

4000K

30 000h

General Data

Article No.	43018021
Code	RL-DUO18 840/G24D EM
Product EAN	4008597180217
Box quantitiy (pcs.)	10
EAN Box	4008597480218
Gross weight of box in kg	0.943
Length of box in m	0.21
Width of box in m	0.09
Height of box in m	0.18
Product weight	80 g
Product status	Inactive

Electric Parameters

Wattage	7.0 W
Nominal power	7.0 W
Weighted energy consumption in 1000 hours	7 kWh
Lamp power	7.0-7.0 W
Power factor	> 0,9

Electric Parameters

Nominal voltage	220-240 V
Mains Voltage	220 - 240 V
Voltage type	AC
Nominal current	30-30 mA
Nominal current (mA)	30 mA
Total harmonic distortion	0.3
max. no. of lamps at 10A automatic fuse	195
max. no. of lamps at 16A automatic fuse	315
dimmable	No

Light Application Parameters

Rated lamp luminous flux	700 lm
Beam angle	120 °
Efficacy	100 lm/W
Total mains efficacy	100 lm/W
Color temperature	4000 K
Color rendering index	≥ 80
Color Stability	≤ 6 sdcn

Service Life

Average life	30000 h
Tc Temperature max.	85 °C
Mean service life	30000 h
No. switching cycles	100000
Lamp survival factor at 6000h	≥ 0.90
Early failure rate at 1000h	≤5.0%
Guarantee	3 years

Specification

Energylabel notice	old label, no EPREL registration, no EU data sheet
Energylabel (E -> A++)	A+
Diameter	34 mm
Length	148 mm
Length	147,5 mm
Burning position	any
Mercury content	0.0 mg

LED EssenceDuo - Retrofit f. Ralux Duo

RL DUO18 7W/230/840/G24D

Radium

Specification

Material	Plastic
Lamp shape	Tube, single-ended
Base	G24d-2
Colour	White

Notes on Operation

Degree of protection (IP)	IP20
Burning position	any
Mode of operation	CCG, 230V
suitable for tandem circuit	No
Range of storage temperature	-20...+80 °C
Ambient temperatures	-20...+40 °C
Tc Temperature max.	85 °C

Information especially for EPREL

Energylabel notice	old label, no EPREL registration, no EU data sheet
Lighting technology	LED
Mains/Non mains connectable	MLS
Directional or non-directional light	NDLS
Color tunable light source	No
Type of color temperature	SINGLE_VALUE

Notes

LED compact lamp for exchange with Ralux Duo, neutral white light, plastic body, non-dim, base G24d.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value.

The optimal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Base

G24d
IEC/EN 60061-1
sheet 7004-78-5

Spectrum

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.

The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.

White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin.

LED EssenceDuo - Retrofit f. Ralux Duo

RL DUO18 7W/230/840/G24D

Radium

Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

LED retrofit lamps 4000K

daylight(D 65)

Special features

General notes

When replacing Ralux Duo with LED-lamps, we recommend a simple and uncomplicated replacement (1: 1) at the respective light point without rewiring. Operation at mains voltage directly would also be possible. RL-DUO lamps are not suitable for tandem operation. 35 ° C ambient temperature for the lamp inside the luminaire must not be exceeded. Outdoor use is only permitted with suitable luminaires (IP protection).

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.

Subject to change without notice. Errors and omissions excepted.

Safety instructions

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
