LED low voltage retrofit

RL MR16 35 4,6W/12/WFL/827/GU5.3

Radium

Product Datasheet Date: 01.11.2026

A+	G	4,6	350	2700K	15 000h

General Data

Article No.	43019051
Code	RL-MR16 35 827/WFL
Product EAN	4008597190513
Box quantitiy (pcs.)	10
EAN Box	4008597490514
Gross weight of box in kg	0.476
Length of box in m	0.259
Width of box in m	0.11
Height of box in m	0.065
Product weight	38 g
Product status	Inactive

Electric Parameters

Wattage	4.6 W
Nominal power	4.6 W
Weighted energy consumption in 1000 hours	4,6 kWh
Lamp power	4.6-4.6 W
Power factor	≥ 0.5

LED low voltage retrofit
RL MR16 35 4,6W/12/WFL/827/GU5.3

Radium

Electric Parameters

Power factor	0.78
Nominal voltage	11.5-12 V
Voltage type	AC
Nominal current	490-490 mA
Lamp's nominal current	0.49 A
Nominal current (mA)	490 mA
dimmable	No

Light Application Parameters

Rated lamp luminous flux	350 lm
Luminous flux in 90°-sector	350 lm
Beam angle	36 °
Luminous intensity	950 cd
Efficacy / Luminous efficiency	76,09 lm/W
Total mains efficacy	76.09 lm/W
Color temperature	2700 K
Color rendering index	≥ 80
Color Stability	≤ 6 sdcm

Service Life

Average life	15000 h
Tc Temperature max.	77 °C
Mean service life	15000 h
No. switching cycles	100000
Lamp survival factor at 6000h	≥ 0.90
Early failure rate at 1000h	≤5.0%
Guarantee	4 years

Specification

Energylabel notice	old label, no EPREL registration, no EU data sheet
Energylabel (G -> A)	G
Energylabel (E -> A++)	A+
Diameter	51 mm
Length	46 mm
Length	46 mm
Burning position	any

LED low voltage retrofit
RL MR16 35 4,6W/12/WFL/827/GU5.3

Radium

Specification

Mercury content	0.0 mg
Photobiological safety according to EN 62471	RG0
Lamp shape	Reflector
Base	GU5.3
Material	Glass
Colour	White
Housing colour	Other

Notes on Operation

IP Class (Room/Ceiling)	IP20
Burning position	any
Mode of operation	LV transformer
Ambient temperatures	-20…+40 °C
Tc Temperature max.	77 °C
With movement sensor	No

Information especially for EPREL

Energylabel notice	old label, no EPREL registration, no EU data sheet
Lighting technology	LED
Directional or non-directional light	DLS
Color tunable light source	No
Type of color temperature	SINGLE_VALUE
Color stability MacAdams EPREL	6
Displacement factor EPREL	0.70
Life factor EPREL	0.9
Lumen maintenance EPREL	0.93
Flicker	1.0
Stroboscopic effect	0.4
EPREL ID number	907160

Notes

MR16-LED, exchange with 12V halogen lamps, warm white light, glass bulb, non-dim, base GU5,3. LED light does not contain UV or IR radiation.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.
The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value.
The optinal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

LED low voltage retrofit
RL MR16 35 4,6W/12/WFL/827/GU5.3

Radium

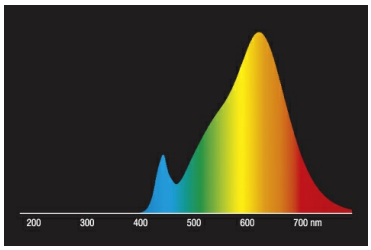

Base

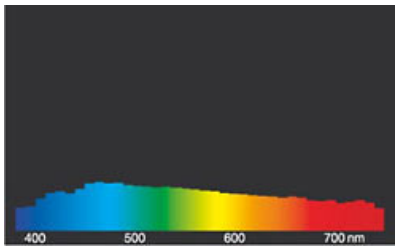

GU5.3
IEC/EN 60061-1
sheet 7004-109-2

Spectrum

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.
The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.
White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin.
Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

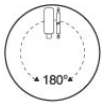

LED Retrofit reflector lamps MR16 / PAR 16 2700K

daylight(D 65)

Special features

General notes

For LED replacement of halogen and incandescent lamps, we recommend direct replacement (1: 1) at the respective burning position. For new systems, the number of lamps in the circuit operated at control gear such as transformers or dimmers can be obtained from corresponding compatibility lists (if available). If there is no specification for the type of device or lamp required, for safety reasons, the replacement power shall be assumed as taht of the original halogen type (eg "RL-MR16 35" -> 35W, independent of the real power consumption).

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.
® = Registered trademark
Subject to change without notice. Errors and omissions excepted.

Safety instructions

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
