

LED Star 12V-RetroFit

RL MR16 35 DIM 4,9W/12/WFL/830/GU5.3

Radium

Product Datasheet Date: 02.04.2026

A+

350

3000K

25 000h

General Data

Code Radium	42919029
Désignation	RL MR16 35 DIM 4,9W/12/WFL/830/GU5.3
EAN 10 (unité)	4008597190292
Unité de transport (pièces)	10
EAN 40 (carton)	4008597490293
Poids brut du carton en kg	0.605
Longueur box in m	0.27
Largeur du carton en m	0.11
Hauteur du carton en m	0.07
Product weight	32 g
Product status	● Inactif

Electric Parameters

Wattage	4.9 W
Power factor	> 0,7
Nominal voltage	11.5-12 V
Voltage type	AC
Nominal current (mA)	500 mA

Light Application Parameters

Rated lamp luminous flux	350 lm
Luminous flux in 90°-sector	350 lm
Luminous intensity	950 cd
Beam angle	36 °
Efficacy	71.43 lm/W
Color temperature	3000 K
Color rendering index	≥ 80
Color Stability	≤ 5 sdcn

Service Life

Average life	25000 h
Tc Temperature max.	91 °C
Mean service life	25000 h
No. switching cycles	100000
Guarantee	5 years

Specification

Energylabel notice	old label, no EPREL registration, no EU data sheet
Energylabel (E -> A++)	A+
Diameter	50 mm
Length	52 mm
Length	52 mm
Burning position	any
Mercury content	0.0 mg
Material	Glass
Photobiological safety according to EN 62471	RG0
Lamp shape	Reflector
Base	GU5.3
Colour	Other

Notes on Operation

Degree of protection (IP)	IP20
Burning position	any
Mode of operation	LV transformer
Ambient temperatures	-20...+40 °C
Tc Temperature max.	91 °C

LED Star 12V-RetroFit

RL MR16 35 DIM 4,9W/12/WFL/830/GU5.3

Radium

Notes on Operation

With movement sensor	Non
----------------------	-----

Information especially for EPREL

Energylabel notice	old label, no EPREL registration, no EU data sheet
Lighting technology	LED
Directional or non-directional light	DLS
Color tunable light source	Non
Type of color temperature	SINGLE_VALUE
Displacement factor EPREL	0.70
Lumen maintenance EPREL	0.93
Flicker	1.0
Stroboscopic effect	0.4

Notes

MR16-LED, exchange with 12V halogen lamps, warm white light, plastic body, dimmable, base GU5.3. LED light does not contain UV or IR radiation.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value.

The optimal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Culot

GU5.3
IEC/EN 60061-1
sheet 7004-109-2

Courbes spectrales

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.

The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.

White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin. Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

RL MR16 35 DIM 4,9W/12/WFL/830/GU5.3

Radium

Notices explicatives générales

For LED replacement of halogen and incandescent lamps, we recommend direct replacement (1: 1) at the respective burning position. For new systems, the number of lamps in the circuit operated at control gear such as transformers or dimmers can be obtained from corresponding compatibility lists (if available). If there is no specification for the type of device or lamp required, for safety reasons, the replacement power shall be assumed as that of the original halogen type (eg "RL-MR16 35" -> 35W, independent of the real power consumption).

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.

Subject to change without notice. Errors and omissions excepted.

Consignes de sécurité

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
