GUARANTEE

General Data

Code Radium	43820929
Désignation	RL-PAR38 120 DIM 927/30°/E27
EAN 10 (unité)	4008597209291
Unité de transport (pièces)	6
EAN 40 (carton)	4008597409295
Poids brut du carton en kg	2.18
Longueur box in m	0.405
Largeur du carton en m	0.275
Hauteur du carton en m	0.2
Product weight	260 g
Product status	● Actif

Electric Parameters

Wattage	14.5 W
Weighted energy consumption in 1000 hours	15 kWh
Lamp power	14.5 W
Nominal voltage	220-240 V
Voltage type	AC

Electric Parameters

Nominal current	76 mA
-----------------	-------

Light Application Parameters

Rated luminous flux according to IEC 62612	1035 lm
Luminous flux	1035 lm
Luminous intensity	2500 cd
Beam angle	30 °
Efficacy	84 lm/W
Total mains efficacy	84 lm/W
Color coordinate X	0.458
Color coordinate Y	0.410
Color rendering index	≥ 90
Color Stability	≤ 6 sdc _m

Service Life

Average life	25000 h
Min. number of switching cycles	20000
Guarantee	5 years

Specification

Energylabel (G -> A)	G
Diameter	122 mm
Length	134 mm
Length	134 mm
Burning position	any
Photobiological safety according to EN 62471	RG0
Lamp shape	Reflector
Base	E27
Colour	White

Notes on Operation

Degree of protection (IP)	IP20
Burning position	any
Ambient temperatures	-20 ... +40 °C
With movement sensor	Non

Information especially for EPREL

Lighting technology	LED
Mains/Non mains connectable	MLS
Directional or non-directional light	DLS
Color tunable light source	Non
Type of color temperature	SINGLE_VALUE
Life factor EPREL	0.9
Flicker	1.0
EPREL ID number	2608435

Notes

PAR38 LED for exchange with 230V reflector lamps, warm white light, 30° beam angle, dimmable, glass bulb, base E27.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage. The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value. The optimal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Courbes spectrales

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K. The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering. White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin. Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

LED-Retrofit-Lamps 2700K

daylight(D 65)

Particularités

Notices explicatives générales

For LED replacement of halogen and incandescent lamps, we recommend direct replacement (1: 1) at the respective burning position. For new

LED Star PAR38

Radium

systems, the number of lamps in the circuit operated at control gear such as transformers or dimmers can be obtained from corresponding compatibility lists (if available). If there is no specification for the type of device or lamp required, for safety reasons, the replacement power shall be assumed as that of the original halogen type (eg "RL-MR16 35" -> 35W, independent of the real power consumption).

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefs) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.

Subject to change without notice. Errors and omissions excepted.

Consignes de sécurité

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
