

Low pressure sodium lamp

SOX PLUS 35W/230V/BY22D

Radium

Product Datasheet Date: 19.06.2026

A+

4600

1800K

General Data

| | |
|---------------------------|---|
| Article No. | 34309109 |
| Codice | SOX PLUS 35W/230V/BY22D |
| Product EAN | 4050300614311 |
| Box quantity (pcs.) | 12 |
| EAN Box | 4050300614328 |
| Gross weight of box in kg | 3.5 |
| Length of box in m | 0.4 |
| Width of box in m | 0.25 |
| Height of box in m | 0.19 |
| Product status | ● Inattivo |

Electric Parameters

| | |
|---|-------------|
| Wattage | 36.0 W |
| Lamp nominal wattage | 35 W |
| Mains voltage | 230 V |
| Nominal current (A) | 0.6 A |
| Compensation capacitor for 50Hz operation | 20 μ F |
| Running up current max. | 100% (+- 0) |

Electric Parameters

| | |
|---------|---|
| Fuse | Delay-action; min. double nominal current |
| dimming | No |

Light Application Parameters

| | |
|--------------------------------|-------------|
| Luminous flux | 4600 lm |
| Rated lamp luminous flux | 4600 lm |
| Efficacy / Luminous efficiency | 127.78 lm/W |
| Total mains efficacy | 128 lm/W |
| Colour temperature | 1800 K |
| Colour rendering index CRI | 20-39 |
| Lumen maintenance at 2000h | 0.95 |
| Lumen maintenance at 4000h | 0.90 |
| Lumen maintenance at 6000h | 0.89 |
| Lumen maintenance at 16000h | 0.85 |

Service Life

| | |
|--------------------------------|---------|
| Mean service life | 16000 h |
| Lamp survival factor at 6000h | 0.95 |
| Lamp survival factor at 8000h | 0.95 |
| Lamp survival factor at 12000h | 0.80 |

Specification

| | |
|------------------------|--------|
| Energylabel (E -> A++) | A+ |
| Diameter | 54 mm |
| Length | 311 mm |
| Total length max. | 311 mm |
| Burning position | h110 |
| Design | clear |
| Base | BY22d |

Notes on Operation

| | |
|------------------|------|
| Burning position | h110 |
|------------------|------|

Miscellaneous

| | |
|--------------|-----|
| EU Directive | TIM |
|--------------|-----|

Notes

Low pressure sodium lamp, tubular bulb clear, monochromatic yellow light, base BY22d. Operation with CWA or in hybrid circuit.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value. The optimal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Base

B22d
IEC/EN 60061-1
sheet 7004-10-7

Spectrum

Natural daylight is a mixture of direct sunlight and the light of the sky. Therefore, its spectral composition changes permanently due to the changing time of day. The standardised light classification D65 corresponds to a daylight with a colour temperature of approximately 6500 K. Every discharge lamp type has got an individual spectral power distribution according to its chemical filling. From this result important properties light colour or colour rendering. Due to the monochromatic pure yellow light, SOX lamps offer the maximal possible luminous efficiency but bad colour rendering.

After the lamp start a low pressure sodium lamp needs about 12-15 minutes time to reach its full luminous flux.

Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm) per 10nm.

SOX

daylight(D 65)

Special features

General notes

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.
