LED tubular lampRL-T18 60 6,3W/230/827/C/B15D RO

Product Datasheet Date: 19.10.2025

15 000h

Ε

6,3

806 2700K

General Data

Article No.	43618004
Code	RL-T18 60 827/C/B15D RO
Product EAN	4058075272026
Box quantitiy (pcs.)	4
EAN Box	4058075272033
Gross weight of box in kg	0.178
Length of box in m	0.089
Width of box in m	0.093
Height of box in m	0.101
Product weight	29 g
Product status	PhaseOut

Electric Parameters

Wattage	6.3 W
Nominal power	6.3 W
Weighted energy consumption in 1000 hours	7 kWh
Lamp power	6.3-6.3 W
Power factor	>0,5

LED tubular lampRL-T18 60 6,3W/230/827/C/B15D RO

Electric Parameters

Nominal voltage	220-240 V
Mains Voltage	220 - 240 V
Voltage type	AC
Nominal current	51 mA
Nominal current (mA)	51 mA
max. no. of lamps at 10A automatic fuse	15
max. no. of lamps at 16A automatic fuse	25
dimmable	No

Light Application Parameters

Luminous flux	806 lm
Rated lamp luminous flux	806 lm
Luminous flux in 90°-sector	806 lm lm
Luminous flux in 120°-sector	806 lm lm
Beam angle	320 °
Efficacy	128 lm/W
Total mains efficacy	128 lm/W
Color temperature	2700 K
Color coordinate X	0.461
Color coordinate Y	0.411
Color rendering index	≥ 80
Color rendering index nominal	80-89
Color Stability	≤ 6 sdcm

Service Life

Average life	15000 h
Tc Temperature max.	95 °C
Mean service life	15000 h
No. switching cycles	[100000]
Early failure rate at 1000h	≤ 5.0 %
Guarantee	3 years

Specification

Energylabel notice	old label, no EPREL registration, no EU data sheet	
Energylabel (G -> A)	E	
Energylabel (E -> A++)	A++	

LED tubular lamp

RL-T18 60 6,3W/230/827/C/B15D RO

Specification

Diameter	18 mm
Length	90 mm
Length	90 mm
Burning position	any
Mercury content	0.0 mg
Lamp shape	Tube, single-ended
Base	B15d
Colour	White

Notes on Operation

Degree of protection (IP)	IP20
Burning position	any
Mode of operation	230 V
Ambient temperatures	-20+40 °C
Tc Temperature max.	95 ℃

Information especially for EPREL

Energylabel notice	old label, no EPREL registration, no EU data sheet	
Lighting technology	LED	
Color tunable light source	No	
Color stability MacAdams EPREL	6	
Displacement factor EPREL	0.50	
Life factor EPREL	0.9	

Miscellaneous

Similar products	44019834	

Notes

LED tubular lamp, for exchange with halogen lamps. LED-light does not contain UV or IR radiation.

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value. The optinal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Base

B15d IEC/EN 60061-1 Sheet 7004-11-6

LED tubular lamp

RL-T18 60 6,3W/230/827/C/B15D RO

Spectrum

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.

The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.

White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin. Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

Special features

General notes

For LED replacement of halogen and incandescent lamps, we recommend direct replacement (1: 1) at the respective burning position. For new systems, the number of lamps in the circuit operated at control gear such as transformers or dimmers can be obtained from corresponding compatibility lists (if available). If there is no specification for the type of device or lamp required, for safety reasons, the replacement power shall be assumed as taht of the original halogen type (eg "RL-MR16 35" -> 35W, independent of the real power consumption).

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.

Safety instructions

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
