LED T5 NEO 35/49 830/G5

Product Datasheet Date: 03.12.2025

D

3000K

90 000h

Dimmable

General Data

Article No.	43720834
Kod	RL-T5 35/49 NEO 830/G5 DC
Product EAN	4008597208348
Box quantitiy (pcs.)	10
EAN Box	4008597508349
Gross weight of box in kg	2.497
Length of box in m	1.52
Width of box in m	0.155
Height of box in m	0.08
Product weight	172 g
Product status	Aktywne

Electric Parameters

Wattage	23.4 W
Weighted energy consumption in 1000 hours	24 kWh
Lamp power	13.2-23.4 W
Nominal voltage	66-66.9 V
Voltage type	DC

LED T5 NEO 35/49 830/G5

Electric Parameters

Nominal current	200-350 mA
dimmable	Tak

Light Application Parameters

	0070
Luminous flux	3870 lm
Rated luminous flux according to IEC 62612	3870 lm
Luminous flux	2270-3870 lm
Beam angle	220 °
Efficacy	165 lm/W
Total mains efficacy	153 lm/W
Light colour	warmwhite
Color temperature	3000 K
Color coordinate X	0.4339
Color coordinate Y	0.4033
Color rendering index	> 80
Color Stability	≤ 5 sdcm

Service Life

Average life	90000 h
Tc Temperature max.	95 °C
Mean service life	90000 h
Life L70B10	90000 h
Life L80B10	60000 h
Min. number of switching cycles	20000
Guarantee	5 years

Specification

Energylabel (G -> A)	D
Diameter	17 mm
Tube diameter	15.7 mm
Length	1449 mm
Length	1449 mm
Burning position	any
Mercury content	0.0 mg
Material	Glass
Shatterproof	Nie

LED T5 NEO 35/49 830/G5

Specification

Lamp shape	Tube, double-ended
Base	G5
Colour	White

Notes on Operation

Degree of protection (IP)	IP20
Burning position	any
Mode of operation	DC
Range of storage temperature	-20 +60°C
Ambient temperatures	-20 +45°C
Tc Temperature max.	95 °C

Information especially for EPREL

Lighting to shool on a	LED	
Lighting technology	LED	
Mains/Non mains connectable	NMLS	
Directional or non-directional light	NDLS	
Color tunable light source	Nie	
Type of color temperature	SINGLE_VALUE	
Color stability MacAdams EPREL	5	
Displacement factor EPREL	1	
EPREL ID number	1594007	

Miscellaneous

Similar products	43720835

Notes

T5 LED tube for external LED driver, replacement with fluorescent lamps, warm white light color, glass bulb, dimmable, G5 base

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The "lifespan L70" described for LED lamps indicates the number of hours when the luminous flux has decreased to 70% of its initial value. The optinal field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

Base

G5 IEC/EN 60061-1 sheet 7004-52-5

Spectrum

As daylight is a mixture of direct sunlight and light from the sky, the spectral distribution changes all the time due to the time of the day and the

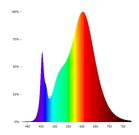

LED T5 NEO 35/49 830/G5

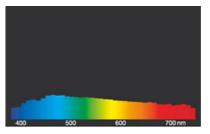

weather. The standard illuminant D65 corresponds to daylight with colour temperature of about 6500K.

The colour of coloured LEDs depends on the chemical elements within the light generating chip. The coloured light is generated directly and does not need filtering.

White LEDs are either RGB (red + green + blue chip in one LED = light colour white) or blue LED-chips with yellow/orange phosphor in the resin. Visible region from 380 to 780 nm; height of graph corresponding with relative spectral emission (400mW/klm)per 10nm.

LED-NEO-Tubes 3000K, Replacements for fluorescent lamps

daylight(D 65)

Special features

General notes

Please note the installation instructions when replacing fluorescent lamps with LED tubes. Some LED lamp types are only suitable for 1: 1 replacement at the reespective burning position: with CCG by using the enclosed starter, with ECG with compatible control gear. Others can be operated directly on 230V (conversion of the luminaire), others again can 'do' CCG as well as 230V or all 3 variations. Neo tubes need an external LED driver (replacement of the control gear). LED Neo tubes are dimmable, all other LED tubes are not dimmable.

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.

Subject to change without notice. Errors and omissions excepted.

Safety instructions

To ensure full light efficiency and product life, the permissible temperature ranges must be observed and dry environment ensured. When operated with existing control gear, their compatibility with the lamp must be checked.

All technical data without guarantee.
