LightingEurope Welcomes Radium as New Member

Brussels, 4 November 2024 - LightingEurope is excited to announce the addition of Radium as its newest member. Founded in 1904 and located in Wipperfürth, Germany, Radium specializes in the production and distribution of light sources, including traditional lamps, also for UV and IR, LEDs, and LED modules.

"Radium has always considered LightingEurope as an important trade association. Due to ever-growing EU regulations, we believe its importance has significantly grown." Markus Gosse, COO of Radium, stated: "However, in the past Radium was only indirectly involved through its former parent companies. Therefore, Radium is excited to finally become a member of LightingEurope and to actively participate in its initiatives in order to achieve the best for all market participants together with our fellow members".

"We are delighted to welcome Radium to our community," said Elena Scaroni, Secretary General of LightingEurope. "Radium's long-standing commitment to innovation and quality makes it a valuable addition to LightingEurope. By joining our association, Radium will bring its expertise and commitment to the implementation of our 2030 strategy."

About LightingEurope

LightingEurope is the voice of the lighting industry, based in Brussels and representing 33 companies and national associations. Together these members account for over 1,000 European companies, a majority of which are small or medium-sized. They represent a total European workforce of over 80,000 people and an annual turnover exceeding 15 billion euro. LightingEurope is committed to promoting efficient lighting that benefits human comfort, safety and well-being, and the environment. LightingEurope advocates a positive business and regulatory environment to foster fair competition and growth for the European lighting industry. About Radium

Radium Lampenwerk GmbH, founded in 1904, is Germany's oldest active lamp manufacturer and has established itself as a leading provider in the lighting industry. With around 180 employees, Radium traditionally stands for innovative and professional lighting solutions of outstanding quality.

At its headquarters in Wipperfürth, in the heart of Germany's lighting industry, the company produces both, standard lamps in large quantities and customized special solutions in the smallest batch sizes on state-of-the-art production lines. Radium combines the expertise of over 120 years of experience with the flexibility of a medium-sized company. The comprehensive know-how enables Radium to offer a broad product portfolio - from traditional UV and IR lamps to innovative LED solutions. In particular, the close contact with retailers and the continuous expansion of international sales relationships have made Radium a trustworthy partner for professional customers worldwide.
