# Control lighting easily and efficiently. With sensors for Easy Connect LED strips.

## Product features:

- Versatile sensors for Easy Connect LED strips (24 V) for contactless switching and dimming\* of lights
- Plug-and-play connection: sensors are easily plugged between the power supply and LED strip thanks to the plug connection
- Compact design: Discreet installation, e.g., in furniture, under wall cabinets, or behind paneling
- Simple mounting: Permanently fixed thanks to the adhesive pad supplied, or removable by screwing on the mounting bracket
- Up to 84 W per sensor at 24 V and 3.5 A
